

Here are some of items always needed in Havana.

If you think you can help please let me know.

For those willing to deliver supplies to Havana I will provide all the needed contact info along with back up contacts.

losperros@spankyproject.org

Wormers, flea and tick preventative are greatly need.

For your information if an animal has a flea infestation it has worms. Therefore the need to rid the animal of fleas goes hand in hand with worming.

Any product will be appreciated collars, shampoos, drops, spray etc.

**DRONCIT (Praziquantel)**

Praziquantel kills mature and immature development stages of tapeworms in the intestine after a single treatment.

**Ivomec 1% Injection or Generic (Ivermectine) for Cattle & Swine**

Do not purchase *Ivomec Plus*.

The dosage of this product has been worked out for use on dogs. This is an effective remedy for parasites and mange mites.
